

# AVEKO *press*®

MADE BY NUMMEK

## WASTE COMPACTOR WITH TROLLEY TIPPING

 100% MADE IN FINLAND

Fewer emptyings

Waste compactors fit in smaller places

Worksite kept clean, better fire safety,  
no odor nuisance

***For construction and worksites***

Very easy emptying the trolley for the user, just by moving it to the tipping device.

The wastes can also be placed by hand into the compactor, as the filling height is low (1400 mm).

The work site stays clean, no debris in the environment.

No odor nuisance, better fire safety.

Easier waste sorting.

Compactors fit in a small spot, and can be placed in parallel.

Environmental pollution reduced.

Easy and cost-effective to transport and empty the waste compactor.
